

The Open Biochemistry Journal is an open-access journal dedicated to the rapid publication of original research articles, reviews/mini-reviews, letters and guest-edited single-topic issues in all sub-disciplines of biochemistry (including genomics, gene expression, replication, proteomics, structural biology, enzymology, bioenergetics, metabolism, signal transduction, bioinformatics, cell biology, glycoscience, glycobiology, glycochemistry, glycotechnology, pharmacology, enzyme inhibition, inhibitory processes, immunochemistry, macromolecules, biopolymers, and nitric oxide). The journal publishes clearly written articles describing significant advances in the field that are of great interest for the scientific community worldwide. Non-conclusive or confirmatory studies are not accepted.

The Open Biochemistry Journal is an international, peer-reviewed, open-access journal covering all aspects of biochemistry published continuously by Bentham Open.

### **EDITOR-IN-CHIEF**

#### Je-Yoel Cho

Department of Biochemistry College of Veterinary Medicine Seoul National University Seoul South Korea

### ABSTRACTED AND INDEXED IN

Chemical Abstracts Service/SciFinder, Chemical Engineering and Biotechnology Abstracts (CEABA-VTB), CNKI Scholar, EMBASE, Genamics JournalSeek, GFMER, Google Scholar, Index Copernicus, JournalTOCs, J-Gate, MediaFinder®-Standard Periodical Directory, QOAM, ROAD Directory, Scilit, Scopus, Sherpa Romeo and TOC Premier.
